SCHÖNBRUNN – A WORLD HERITAGE SITE

**SCHÖNBRUNN
PALACE, ITS PARK
AND ZOO ARE AMONG
AUSTRIA'S MOST
CHERISHED CULTURAL
AND LEISURE
ATTRACTIONS.**

Founded in 1752 by Emperor Franz I Stephan of Lorraine, husband of Maria Theresa, Schönbrunn Zoo is the world's oldest zoo and part of the Schönbrunn UNESCO World Heritage Site. It has been named Europe's best zoo six times in a row.

The zoo's unique charm lies in its imperial atmosphere and the harmonious blend of heritage preservation with a contemporary approach to animal care. Spread across a 17 hectare site, the zoo is home to around 500 species, some of which are critically endangered.

ZOO EXPERIENCE

At many enclosures, visitors can witness feeding times up close while learning fascinating facts about the animals. A variety of guided tours provide intriguing insights into the animals and the zoo itself, ranging from backstage tours to themed explorations and even night tours.

RESTAURANTS AND CAFÉS

The zoo's restaurants and cafés cater to all tastes, offering everything from light snacks to full meals.

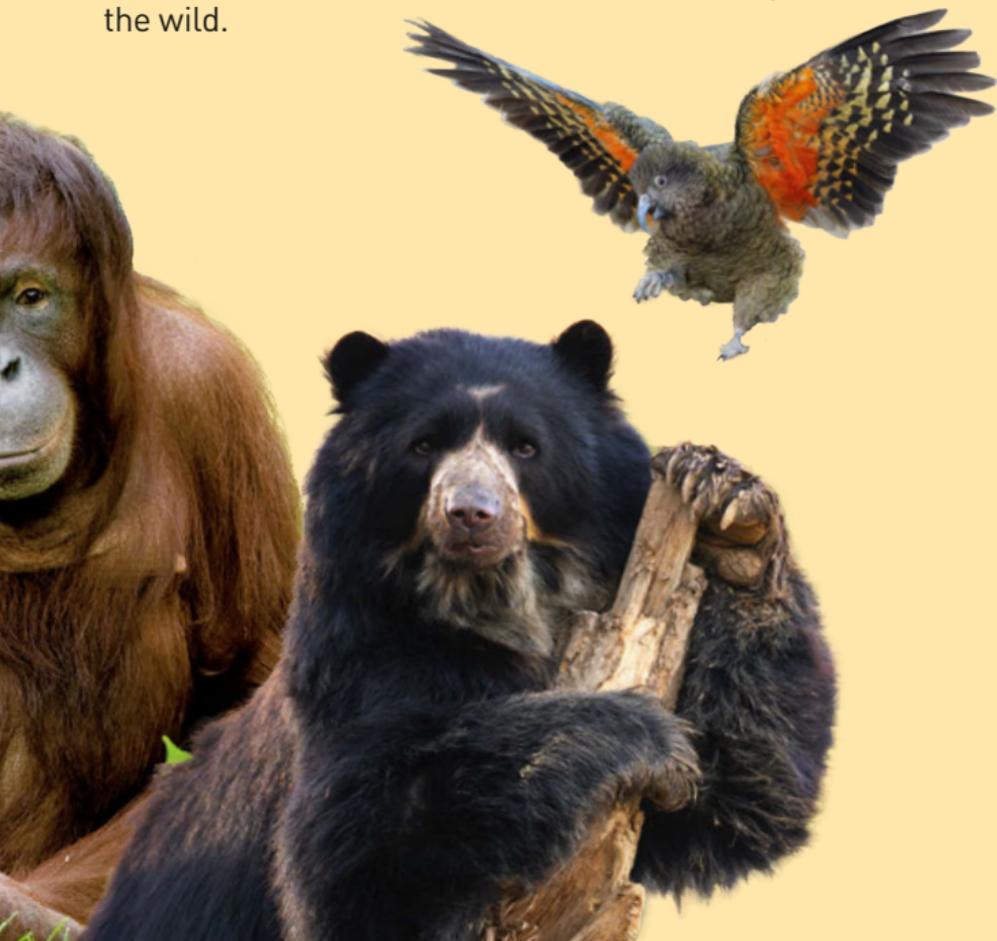

At the heart of the zoo, the Kaiserpavillon – a stunning Baroque gem from the 18th century – now serves as a charming café-restaurant.

Meanwhile, the Tirolergarten inn brings authentic Tyrolean charm, both in its idyllic garden, which is surrounded by parkland, and in its cosy indoor rooms.

PROTECTING AND PRESERVING SPECIES

Schönbrunn Zoo is more than just a place for visitors to relax – it's an education hub and a centre for research and teaching, as well as a dedicated partner to a host of nature and species conservation projects. It sparks curiosity about the natural world, while raising awareness of animal protection. The zoo's animals act as ambassadors for their threatened counterparts in the wild.

LOOKING FOR AN ANIMAL TO SPONSOR?

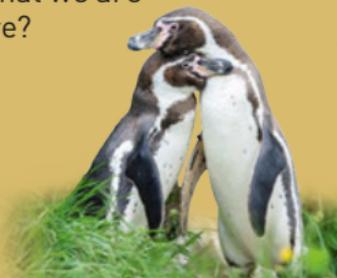

Did you feel a strong connection to one of the animals at the zoo? Love what we are doing and want to help us do more?

Adopt an animal now!

We'll walk you through the process:
